The Patient will also be free to choose from other available dates beyond the eight (8) week period over the following 12 months, if that is the Patient's preference. Where it is not possible for The Clinic to accommodate the reschedule within the 8 week period, a refund may be given

8. RE-ADMISSION POLICY

8.1. The Surgeons, to whom The Clinic refer Patients for cosmetic surgery, strive to provide Patients with the best possible outcome of their Procedure. However, the final cosmetic result cannot be guaranteed, and revision surgery may be necessary or complications can occur no matter how careful the Surgeon or how good the care. This may be due to a number of factors including but not limited to infection or poor blood circulation, or a patient's unpredictable reaction to treatment. In rare cases the Patient may consider that the outcome of their Procedure does not meet the expected result agreed between the Surgeon and the Patient at the Consultation. In those situations consideration will be given to the possibility of improving the result through further surgery. Further surgery on the Patient's post-operative presenting condition will only be carried out at the discretion of the Surgeon who performed the Procedure. If the Surgeon deems that further surgery is necessary in order to improve the result of the original Procedure which is not, in the opinion of the Surgeon, in line with the expected result agreed between Surgeon and Patient at the time of Consultation, then, subject to provisos in Clauses 8.2 to 8.11, The Clinic will provide all surgical and hospital services for this re-admission free of charge to the Patient. Should the Patient request any other additional revision surgery this will be provided at a cost to the Patient. If, however, the Surgeon decides that the results of a Procedure are acceptable and within the normal limits and known risks of surgery, then our normal charge, less 10%, will be made for further surgery but such further surgery will only be offered if the Surgeon considers it to be beneficial and in the Patient's best interests. Should the Patient request any further revision surgery on this basis this will be provided at the normal price to the Patient less 10%.

This readmission policy is subject to the following provisos:

8.2. The Patient must have expressed his/her dissatisfaction with the outcome to The Clinic in writing and been examined at The Clinic by the Patient's operating Surgeon in this context within one year of the date of the original Procedure

8.3. In order for revision surgery to be carried out free of charge the Surgeon and the Medical Director of The Clinic (or a third party independently appointed by the Registered Officer should the Medical Director have carried out surgery him or herself) must agree that the outcome of the Procedure did not meet the expected result and that any complication is directly related to the original Procedure and not accepted as a recognised consequence of that treatment or the patient's underlying medical condition

8.4. In cases where the results of the Procedure originally provided have, in the opinion of the Surgeon, been compromised by lifestyle (including but not limited to smoking, alcohol, drug use, weight gain or exposure to the sun), illness, the natural ageing process or by any failure of the Patient to fully adhere to the instructions, recommendations or advice of the Surgeon regarding postoperative appointments or care and lifestyle, The Clinic cannot commit to providing revision surgery at special rates.

- 8.5.** In the case that the results of the surgery is due to any known risk, that has been discussed before surgery including but not limited to keloid or hypertrophic scarring, The Clinic cannot commit to providing revision surgery at special rate. The Patient can take a preoperative genetic test for patients who wish to know if they are prone to poor scarring and can be offered The Cadogan Scar Management treatment for a fee
- 8.6.** The Surgeon who provides the Procedure is responsible for the outcome of that Procedure. If the original operating Surgeon is not available, it may not be possible to find another Surgeon willing to undertake revision surgery free of charge, in which case The Clinic reserves the right to review the basis, if any, upon which any additional surgery is provided.
- 8.7.** The Clinic will not offer refunds for a patient unhappy with the outcome of a Procedure, or in any other circumstances
- 8.8.** The readmission surgery must take place on Clinic premises unless specifically agreed in writing by a Clinic director. No full payment or partial payment will be offered towards a readmission offsite, nor a refund for the original procedure.
- 8.9.** The readmission surgery must take place with a surgeon organised and authorised by the Clinic. No full or partial payment or refund of the original procedure will be offered if the readmission takes place under the care of a surgeon not organised.
- 8.10.** If a patient has had previous surgery with a third party and attends The Clinic for revision surgery then this and, any further revision surgery, will be at The Clinic's current normal prices.
- 8.11.** In the event of revision surgery being cancelled or postponed by The Patient for non-medical reasons or due to the Patient either not informing The Clinic/ the Surgeon of a known existing medical condition/previous history of drugs taken or not following any pre-operative advice provided by the Surgeon or any other Clinician, including an anaesthetist within 4 weeks of the operation date, no further free-of-charge revision will be offered and The Patient will pay normal The Clinic prices if the surgery is rescheduled.
- 8.12.** In the event the patient has independently organised further surgery with a Third Party Surgeon after the original procedure but before the readmission to the Clinic then this re-admission policy is invalidated and all further surgery will be subject to the Clinic's current normal prices.

Procedures with Breast Implants

- 8.13.** If, within three years of the initial surgery, the operating surgeon believes that a Baker Grade III or IV capsular contracture or rupture is present, a Patient may be readmitted for remedial treatment at no cost to the Patient. Should any further capsular contracture or rupture take place any further remedial surgery will be chargeable at The Clinic's list price less 10%. A rupture must be confirmed by a radiologist's report and approved by a director of The Clinic. The radiologist report will need to be arranged and paid for by the patient.
- 8.14.** Any payment due to the Patient as a result of a manufacturer warranty will be paid by the manufacturer to The Clinic and act as partial payment towards the readmission costs of the patient; except within the first three years of the original Procedure whereby this payment will cover the full readmission costs of the Patient. The manufacturer warranty is only valid when remedial surgery is performed by The Clinic unless the manufacturer warranty specifically state otherwise.

Rhinoplasty and Otoplasty Procedures

- 8.15.** Rhinoplasty is commonly performed as a staged procedure. Each stage will have a separate charge. Overall 10% of patients require further surgery as a second stage to achieve the optimum result. The likelihood of treatment requiring more than one operation is increased by the existence of certain situations which your surgeon will explain, but these include patients who have already had one operation on the nose, has suffered an injury to the nose, the skin of the tip is thick or

overall is very thin, has a particular original shape or the patient suffers from other conditions. This is not an exhaustive list, but your surgeon will advise. You are not obliged to undergo a second procedure. This is a subject for discussion with your surgeon. The aim of surgery is to make patients happier about themselves and the results of rhinoplasty are, like all cosmetic procedures, subjective.

8.16. Otoplasty is commonly performed as a staged procedure. Each stage will have a separate charge.

Overall 15% of patients require further surgery as a second stage to achieve the optimum result. You are not obliged to undergo a second procedure. This is a subject for discussion with your surgeon. The aim of surgery is to make patients happier about themselves and the results of rhinoplasty are, like all cosmetic procedures, subjective.

8.17. If you are readmitted for secondary or revision surgery under the terms of Clause 8, you acknowledge that there will be a charge for the further surgery, in addition to the original charge. This charge will be at a reduced rate of 50% of your original package price

9. COMPLAINTS

9.1. In the event that the Patient is dissatisfied with any aspect of the service provided, the Patient should speak to their Patient Advisor as soon as possible. If they are unable to resolve the complaint to the reasonable satisfaction of the Patient, The Clinic's Complaints Procedure – Patient Guide shall apply. The Clinic subscribes to the Independent Sector Adjudication Service.

11. NO VARIATION

11.1. There can be no variation or exceptions to these Terms and Conditions unless agreed in writing and countersigned by a Director of The Clinic. The Clinic reserves the right to amend, change or delete such terms and conditions as it deems appropriate.

12. LEGAL JURISDICTION

12.1. The services provided by The Clinic and by Clinicians shall be governed by the laws of England and Wales, whose courts shall have exclusive jurisdiction.
