What is Cellulite Treatment?

Cellulite is a cosmetic problem that affects 85% – 95% of British women and 20% of British men.

Cellulite can affect people of all ages, shapes and sizes including those who are very slim. Cellulite can appear anywhere on the body, but most commonly appears on the thighs, buttocks, hips, upper arms and back, or wherever fat deposits are at their most concentrated.

Cellulite is best treated by Cellulaze, a sophisticated laser treatment that targets the underlying cellulite tissue and fat and simultaneously tightens the overlying skin.

Why do People have it?

The benefits of cellulite treatment are both cosmetic and psychological, and include:

- Quick, non – invasive laser treatment
- Single, one-off treatment
- Permanently removes or reduces Cellulite
- Permanently smooths and tightens skin
- Sculpts and contours treated area
- Reduced self-consciousness wearing summer clothes
- Improved emotional wellbeing

Who is Suitable?

Cadogan Clinic considers individuals fit for the procedure, if all of the following are true of them:

- You are in good psychological and physical medical health
- You are at your ideal body weight
